The table above presents paper and plastic consumption for Lindex products sold during 2016 in stores and via e-commerce in all sales countries. Total usage of both plastic and paper have decreased during the year. One of the reasons behind the decrease is withdrawal from business in Russia, as Lindex shops in Russia were closed by May 2016.

Biggest impact on plastic and paper "consumption" is:

Most of the reported paper and plastic use comes from packaging in socks & tights, other paper packaging and plastic hangers, as well as from visual materials used in stores, especially the 'plastic cards' for presenting accessories in stores.
